

Shaping the effortless laundry

Line 6000 Washers and Dryers

Electrolux Professional Line 6000

You talk...

Help me run a first-rate laundry where I get the absolute best results while reducing effort and costs. I need my team to get more done faster, thanks to an ergonomic design that reduces physical strain and a clear, attractive interface. Give me robust equipment that will save me money thanks to lower life cycle costs, year after year.

...we listen

Line 6000 will save you money, anticipate your needs, and exceed your expectations. Our intensive research and cutting-edge product development have led to an ergonomic line of washers and dryers that ensures effortless operation and exceptional savings. We connect you to the cloud and make your laundry work for you. Come with us and discover how great your business can be.

Innovation is the driver of great performance

Easier, healthier, safer

Certified ergonomic design with a human-centered approach for an outstanding user experience.

Real-time solutions

Monitor your equipment's status and performance from anywhere and take action to improve your business.

Long-term savings

Innovative features to save money and time, and embrace a sustainable lifestyle.

Outstanding productivity

Wash and dry more laundry in less time.

Easier,
healthier,
safer

Our priority is to create solutions designed precisely for the people who use them, day after day. **Exceptional results for minimal effort:** it's as simple as that.

Our design is all about you

Anyone who does laundry day in and day out knows that repetitive acts like reaching, bending and pouring can be stress points that make the job more difficult and reduce productivity. By focusing on the physical and cognitive interaction between user and equipment, **we make each of these motions more comfortable for an all-around effortless experience.**

Certified comfort

The user interface has passed third party external testing and the new range is **certified to international standards of ergonomics** and human-centered design.

Our washers and dryers have earned **the prestigious 4-star rating for ergonomics.** This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

Pioneers in usability

Ergonomic interventions can reduce work-related musculoskeletal disorders (WMSDs) by **59%**, with an average decrease of **75%** in sick days and a **25%** increase in productivity.

Washington State
Department of Labor & Industries

Experience 4-stars

Compliance with ergonomic principles
Designed with you in mind

Evidence-based anthropometric & biomechanical compliance
Reduced risk of injury

Evidence-based usability
The culmination of years of professional studies and expertise

Human-centered design
To make laundry simple and stress-free

Automatic or manual dosing. Either way, you win

Save time and chemicals with automatic dosing

Quick to install with all functionality embedded

Simply connect the washer to one or more pumps (for up to 15 types of chemicals!) with a single cable. Detergent, softener and other chemicals will be automatically dosed according to the program and weight of the load. Simplicity is at your service.

Manual dosing has never been so simple

The right height

The front-mounted dispenser is positioned for easy access and tilts down when opened so **you can see each compartment clearly**.

Works with all types of chemicals

Suitable for **either powder or liquid detergent**, with a dedicated bleach compartment.

Easy to clean

Clear visibility and removable components make cleaning the dispenser simple and convenient.

Easy to dose

The dispenser has 6 color-coded compartments that **make it easy to dose correctly**, for the best wash results. Not sure what to pour where? Just follow the simple instructions on screen.

Making every step intuitive and straightforward

The new **ClarusVibe** control guarantees an intuitive experience and smooth interaction, providing a **smart and effortless way to manage the wash process**. Fully self-explanatory, it **saves time** and **boosts productivity** by making it easy to do the right thing on the first try for all users. ClarusVibe comes pre-set with all the programs you need, according to local regulations and the specifics of your business.

Full HD 7" color touchscreen

A clear and comprehensive layout gives users **full command of the process** without the need for searching and scrolling.

Intuitive & customizable

More productivity with an easy-to-use interface. You can even **set a customizable picture** for each of your selected programs.

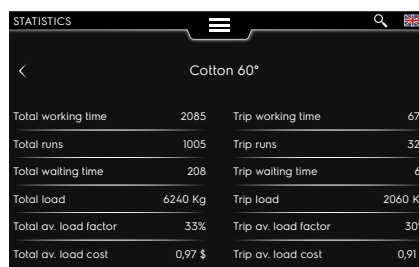

Fully editable programs

Easily set up **programs for anything**, from delicates to workwear and from surgical scrubs to plastic toys. You can update your library any time, directly on screen, without the need for a computer.

Multi-language

Compatible with all languages, even right-to-left scripts like Arabic. For international use or your multicultural team.

On-screen statistics

Easy, real-time access to a **wealth of information** that owners need to operate a successful business.

Easy dosing

Dosing pumps are fully controlled by ClarusVibe so you can be sure the **right amount of each chemical** is added at the right step of the process.

Work comfortably, dry more in less space

Space-saving

The new range **takes less than one square meter** of floor space, regardless of heating system (gas, electric, steam or heat pump).

The door that makes the difference:

A better grip

Open and shut the door smoothly thanks to the handle design and easy-close magnetic door.

Safer for users

The insulated glass door stays cool on the outside so there is **no risk of burned fingers or hands**. It also keeps the heat inside, so the room temperature is not affected.

Ideal height

The door is positioned at the most ergonomically **suitable height**. This makes a real difference for loading and unloading.

Sturdy and reliable

Because the door is **built to last**, it will optimize performance throughout the life of the dryer.

Watch the video and find out more!

A filter drawer right where you need it

Maximum comfort

The horizontal filter drawer is positioned for **easy access and cleaning** without the need to bend down. Human-centered design down to the smallest details **takes the stress out of a physically demanding job**.

Power to the tower

Wash & dry **70 kg**
per day in less
than 0.4 m²!

If you put a premium on space, we have the solution for you. On their own, the WH6-6 washer and the TD6-7 dryer are both **full-featured professional models** in a more compact size. As a pair, the efficiencies multiply for unbeatable productivity and savings.

With their smaller footprint, **they fit into challenging spaces or leave you room to install more equipment**, while still providing optimal results.

Stackable!

They can be stacked to save space.
In this case, the control panel on the dryer is moved to the bottom so it stays within easy reach.

Smart interface

The Compass Pro® microprocessor works through a large screen where you can select your program easily in your choice of language. Quick-select buttons for frequently used programs and intuitive new icons for normal/low temperature, delicates, and other options.

Long-term savings

You know how
expensive it can be to
run a laundry business.
Let us **keep your costs
down** so your business
can reach new heights.

Look under the surface to see how much you save

When considering the cost of an investment, the up-front expense is just the tip of the iceberg. Operating costs accumulate, year after year, and make up the largest share of your expense. Over the long term, **our washers and dryers will cost you much less and make your investment more profitable.**

Our "iceberg" is slim

While other washers and dryers have **extensive lifetime costs**, we can represent ours with a slimmer iceberg shape because of the savings you will achieve thanks to its **money-saving features** and robust engineering.

Competitors' life cycle costs

Here is a representation of what other brands cost over the life of their washers and dryers.

15%
Up-front investment

85%
Life cycle costs

These costs make up **the bulk of your expenses** during the lifetime of your washer or dryer.

- Chemicals
- Energy
- Water

From intelligence to Excellence

By considering our customers' needs, ideas and suggestions, we create intelligent features that make our customers' work lives easier and more profitable.

Not just clean: green and lean

Line 6000 is designed for the lowest possible **water, energy and detergent** consumption. With Automatic Savings or Integrated Savings, Intelligent Dosing and Power Balance technologies, we ensure minimum cost per load while helping you run an environmentally sustainable business.

Not a drop of water wasted

Automatic Savings weighs the linens and adjusts the water intake to the actual load. This **saves water, energy and money** at anything less than full loads.

without AS

with AS

Weighing your options for you

With **Integrated Savings** measuring and showing the load in real time, you can avoid overloading and underloading, for optimized productivity. This way you **maximize profits, obtain optimal results, save water and energy** at less than full loads, and extend the lifetime of your washer.

Longer lifecycle

Precise detergent dosing

With the **Intelligent Dosing** feature, the precise amount of detergent will be added automatically according to the weight of the load.

without ID

with ID

Extraction sequence perfectly balanced

Power Balance translates to real-time unbalance monitoring and G factor adjustment throughout the extraction sequence, for **maximum dewatering** and lowest moisture retention to save you time and money in the drying process.

Maximum dewatering

Two easy options for automatic dosing

The Intelligent Dosing feature that automatically adds the right amount of chemicals works in perfect tandem with either of our dosing pump options. **JETSAVE and DOSAVE optimize the process** to eliminate waste and deliver consistently excellent results.

Sound complicated? Not at all. Your washer is ready to go with **two quick connection cables**: one for the power supply and one for dosing signals data, with no need for multiple cables or difficult wiring jobs.

JETSAVE option

DOSAVE option

The **JETSAVE option** in particular uses venturi-based, water-powered pumps that require less maintenance because there are no moving parts or squeeze tubes to replace. Dosage is even more consistent, and installation is even tidier thanks to the built-in flush manifold.

Watch the video and find out more!

We make breakthroughs to save you money

Line 6000 is several laps ahead of other dryers in terms of energy savings and speed. This is good for the world around us and good for your bottom line. By investing heavily in **advanced technology**, we have achieved **outstanding drying times** while also reducing the dryer's life cycle costs.

Heat pump dryers: where sustainability meets performance

Heat pump dryers have always been good at saving energy. Ours takes it a step further and **saves you more than 60% compared to traditional dryers!**

In the past, the tradeoff for energy savings through heat pump technology was slower drying times. Electrolux has **changed the rules when it comes to heat pump dryers and performance.**

Save more than
60%
on energy

Best result with all fabrics

From delicate silk to heavy cotton: manually **adjusts the drum speed to control the mechanical action**. Garments will move correctly in the drum for the fastest drying.

Efficient in every way

The heat pump line is suitable for installation almost anywhere thanks to a small footprint and **plug & play capabilities**. This saves money on installation costs because there is no need for exhaust, ducting, ventilation or a water cooling system.

No need for:

- exhaust
- ventilation
- water cooling system

Install it anywhere and save money!

More exciting news in dryer technology

High performance, less noise

The **Adaptive Fan** control **adjusts the fan speed automatically to save energy, reduce drying time, and provide an even drying result.** It can also be used to reduce the noise level when needed, and makes it easier to install dryers in a challenging environment. Adaptive Fan turns on automatically, for example if filters are clogged or if ventilation ducts are too small. It also makes the fan last longer, to save you time and money.

*The Adaptive Fan control is only available with the electric version.

Adaptive Fan control can also be important when you have more than one dryer in a series:

If your ventilation duct grows wider and the filters are clean

If your ventilation duct has a constant diameter:

Adaptive Fan will compensate by adjusting the fan speed of each dryer, to **keep air flowing efficiently.**

For all of our dryers

Moisture
Balance

Dry not overdry

Moisture Balance measures the exact **moisture level** throughout the drying process. Protects garments and saves energy by stopping as soon as they are dry, or at the moisture level you set.

Outstanding productivity

The laundry business is hugely time-intensive. Faster equipment means you can handle more loads of laundry in a day: **the easiest way to make your business more productive.**

Wash & dry more. In less time

Increased output per washer and dryer is already something to celebrate. Combine that with great results, and customers will keep coming back.

With Line 6000, there is no such thing as compromise, and you can finally **have it all**.

Maximum productivity
and consistently ideal
results, time after time.

**Satisfied
customers**

**Greater
profits**

Washers designed so thoughtfully that every step is easy

Imagine never having to wonder what buttons to press to select a program or add the right amount of chemicals. Load after load, you'll save time on these tasks, and enjoy a **stress-free experience** thanks to our ergonomic improvements. Extreme user friendliness and reduced strain add up to a **more productive business** all around: just press a button for **consistently excellent results**.

Exceptional design

Ergonomic improvements and an intuitive interface

Easy to use

Less strain, obvious choices

Effortless process

Get it right the first time!

Do more & better in less time

The goal of every successful business

The most productive dryer you can buy

There is no other dryer that can **handle the volumes** ours does in the same amount of time. You will be amazed by how fast you can move loads of laundry and how much your business can accomplish.

16 KG in **42** MIN*

Shortest drying time on the market

That's a performance like no other in the industry!

*At rated capacity, 100% cotton load at 50% initial moisture dried to 0%.

Dry more garments in less time

The smaller dryer takes 44 minutes* to dry 6 kg of garments. Choose the larger model and you will be even more productive!

*At rated capacity, 100% cotton load at 50% initial moisture dried to 0%.

Did you know?

To dry this load in the same amount of time, **with other brands you would need two dryers instead of one!**
